Education

2022-2027

İstanbul Health and Technologies University
İstanbul/Turkey

Computer Engineering (English)
GPA: 3.18/4

Work Experience

2025 – Present

Technology Transfer Office, Istanbul Health and Technology University
Long-term Intern
• Supported university–industry collaboration projects
• Assisted in project funding applications and reporting

2024 – Present

TÜBİTAK 2209-A Project: Smart Mobile Application for Chronic Patients
Project Developer
• Designed and developed both frontend and backend of a cross-platform Flutter application.
• Integrated Firebase for authentication, real-time database, and cloud storage.
• Implemented Bluetooth communication for real-time data collection from medical sensors (pulse oximeter, skin temperature, GSR).
• Contributed to project documentation and testing, ensuring reliability of data transfer and system performance.

Additional Information

Technical Skills

Programming: Flutter, Python, Java, C, C++, C#
Databases: MySQL, Firebase (Realtime Database, Cloud Storage)
Firebase Tools: Visual Studio Code, Arduino IDE, Android Studio, IntelliJ IDEA

Languages

Turkish (Native)
English (B1 – can handle technical discussions)

Certificates

• International Conference on Science, Engineering & Technology (ICSET-25) – IAAR-10-25-0027088

• Introduction to Java Programming – BTK Academy
• Git and GitHub – BTK Academy
• Introduction to Cybersecurity – BTK Academy

Interests

Software development, artificial intelligence, mobile applications, project management
